Skills

Front End
- HTML
- CSS / SASS
- JavaScript / TypeScript
- Angular / React

Back End
- Python
- Django / Flask
- SQL

DevOps / Administration
- Linux / Bash
- Git / CI/CD
- Docker

Soft
- Teamwork
- Scrum
- Jira
- Problem Solving

Other
- Rust
- Java / Spring Boot
- Pandas / TensorFlow
- Network
- Cryptography

Langues
- Polish — native
- English — advance (C1)

About Me

From an early age, I've been captivated by technology, computers, and the world of informatics. Alongside a strong passion for IT, my interests span bushcraft, sports, economy, and electronics, providing a well-rounded perspective. I'm eager to dive into various IT roles, including backend development, DevOps, cybersecurity, and OS development. With youth, energy, and a hunger for learning on my side, I'm determined to make the most of every opportunity and build a successful career in the tech industry.

Experience

Backend Developer

Profil Software — April 2024 - July 2024

- Building and enhancing a comprehensive application for small and medium business management
- Working with microservices with Django RESful API
- Job involved design and optimization Postgres database structure

Backend Developer Intern

Profil Software — January 2024 - March 2024

- Internship consisted of best tutorials, articles and books to cover necessary topics, inspired by developer roadmap
- The materials covered the basics of Git, Linux OS, Python, as well as Backend, DevOps, Data Science and ML
- The program included projects in Flask, Django and Tensorflow

Graphics Software Development Intern

Intel Corporation — July 2022 - July 2023

- Contributed to building and modernizing an internal graphics environment for running graphics cards tests
- Worked primarily with Angular, TypeScript, and SCSS
- Developed new frontend solutions for efficient data flow and structuring

Certificates

CCNA R&S: Introduction to Networks

Cisco Networking Academy — 2020

NDG Linux Essentials

Cisco Networking Academy — 2021

Education

Mastes's Degree - Cybersecurity

Akademia Marynarki Wojennej — 2024 - now

Bachelor's Degree - Computer Science

University of Gdańsk — 2020 - 2023

My studies covered a diverse array of computer science disciplines, starting from front-end and back-end development to computer networking, operating system comprehension, server administration, and numerical algorithms. Additionally, I delved into topics such as database management and cybersecurity to gain a comprehensive understanding of the field.
